China's Ministry of Finance on June 15, 2018 released a [retaliation list](#) in response to the United States' tariff announcement the same day.

The [revised list](#) is broken into two parts, mirroring the United States' own lists. The first list, found below, consists of 545 tariff lines of US products worth \$34 billion, including agricultural products, cars, and aquatic products. It is to be implemented on July 6, the same date that the new list of US tariffs on \$34 billion worth of Chinese products will be implemented. The [second list](#) of 114 products will face tariffs in the future, likely when the United States finalizes and implements its own second phase of tariffs.

List of Chinese Retaliatory Tariffs on the United States

List 2 – Tariffs on 114 Items Worth \$16 Billion to be Implemented at an Undetermined Later Date

Ministry of Finance of the People's Republic of China
June 15, 2018

(Note: This document, which serves as a translation of China's [List of Tariffs on the United States](#) is an unofficial translation by the US-China Business Council, to be used for reference only. The official Chinese-language version is the authoritative version.)

China's Ministry of Finance on June 15, 2018 released a [retaliation list](#) in response to the United States' tariff announcement the same day.

The [revised list](#) is broken into two parts, mirroring the United States' own lists. The first list consists of 545 tariff lines of US products worth \$34 billion, including agricultural products, cars, and aquatic products. It is to be implemented on July 6, the same date that the new list of US tariffs on \$34 billion worth of Chinese products will be implemented. The [second list](#), found below, of 114 products will face tariffs in the future, likely when the United States finalizes and implements its own second phase of tariffs.
